

SAFETY OF LIFE AND CARGO AT SEA

## Hazcheck News - Issue 44

Welcome to issue 44 of Hazcheck News.

We hope you enjoy reading the newsletter!

### IMDG Code Am. 41-22

#### Summary of Changes in several languages

Exis Technologies are delighted to provide a FREE Summary of Changes for the forthcoming IMDG Code Amendment 41-22 in several languages English, French, Spanish and Chinese (traditional and simplified versions).

The change summary provides an overview on some of the updates being introduced in the Amendment 41-22 edition of the IMDG Code. This version of the IMDG code may be used on an optional basis from January 1st 2023.

## Logistics Awards

Recognising leadership and excellence in logistics

2022 Winner

LOGISTICS UK

We are delighted to announce that Exis Technologies has **won** the '**Logistics Technology Provider of the Year**' category of Logistics UK's 2022 Awards. The award was presented to Jamie Baldasera - Development Lead (Centre) and Andy Rutter - Customer Success Manager (2nd from Right).

The award was in recognition of Hazcheck Detect, cargo screening solution which to date has been adopted by four major shipping lines, Maersk, ONE, Hapag Lloyd and PIL, with approximately 30% of global shipping volumes now being screened by this solution. To find out more about Hazcheck Detect click the button below.

### Business Development Manager joins the Exis team!

We are excited to announce the appointment of Paul Armstrong in the newly created position of Business Development Manager. The role will help with a new phase of growth with exciting new products in 2023.

Paul has been in the shipping industry for 15 years and comes to us from CMA-CGM.

Paul will support the Customers Accounts Director to ensure successful management in the delivery of products to our global customer base.

We wish Paul success in his new role!

Paul can be contacted via [sales@existec.com](mailto:sales@existec.com)

### Spotlight on Free tools

#### **Risk Zone Data Am.41-22**

Exis Technologies continue to support the CINS stowage guidelines and, together with industry partners, maintain the Hazcheck Risk Zone (RZ). The latest Am.41-22 Risk Zone Data can be downloaded clicking the button below.

#### **Coded Variant List Am.41-22**

The IMDG Coded Variant List (CVL) is supplied by Exis Technologies as a free resource to assist companies in exchanging IMDG Code information in EDI messages, such as BAPLIE and IFTMBF. The provision of this IMDG Coded Variant List (CVL) is the result of a partnership with the SMDG Group who supply the manuals to define EDI messages in the maritime industry. The latest Am.41-22 Coded Variant List can be downloaded clicking the button below.
