

## **Hazcheck Validate and Early Access**

We are excited to introduce the new Hazcheck Validate, a single solution for all your maritime regulatory compliance, search and validation needs. Whether you need basic dangerous goods regulatory information, or you want to access advanced validation features, Hazcheck Validate has you covered.

Commencing with the replacement of our DGL Lite App, visit https://app.hazcheck.com to find basic information relating to dangerous goods.

We are also launching our Hazcheck Early Access, existing Hazcheck Online and Hazcheck Workstation users can test and provide feedback on our new functionality. To access the preview, please contact <a href="mailto:services@hazcheck.com">services@hazcheck.com</a> and we will arrange complimentary access along with your current subscription. Join us in creating a future where safety and efficiency seamlessly come together. Discover a smarter, safer way to ship dangerous goods.

## IMDG Refresher Course

It is a mandatory requirement that IMDG Code training is periodically supplemented with refresher training to take account of changes in the regulations. Our online IMDG Code Refresher Course offers just that providing a concise yet comprehensive update on the latest Amendment 41-22 changes for transporting dangerous goods by sea whilst providing you with a recap on the main provisions within the Code.

Taking this online course can elevate your maritime knowledge from anywhere and at your own pace, ideal for the busy maritime professional!

This training can also be enhanced with add-on modules focusing on the additional requirements in both ADR and 49CFR when shipping under a combined maritime journey.

Sign up today to maintain compliance and keep your expertise up to date.

## To enhance operational efficiency in the maritime sector, we highlight the

**IMDG Coded Variant List** 

importance of the IMDG Coded Variant List (CVL) alongside the latest IMDG amendment 41-22 update.

Developed in collaboration with the SMDG Group, the CVL addresses

challenges in identifying variants for UN Numbers during Dangerous Goods

(DG) exchanges.

Stay updated on these advancements and align with the latest changes in amendment 41-22 by clicking the link below!

## In alignment with Amendment 41–22, NCB Hazcheck has successfully refreshed all of the e-learning courses related to the IMDG Code. Our updated courses are

certifications before the system is retired.

currently available on Hazcheck Learn, our latest generation learning management system.

Please be advised that as 31st March 2024, administrators and students will no longer be able to access these records through using the e-learnbase.com

platform. We encourage users to download any old training materials and

Click the link below to read more about the enhanced learning options provided by the new courses, tailored for Amendment 41-22, and the Hazcheck Learn platform. Make sure you have a smooth start to the new year and keep up with the most recent standards.
